

Ethos & values

The College Charter

Our goal is to become an outstanding community for learning and teaching, where everyone, students and staff, exceed expectation.

All members of the college community contribute to an ethos founded on core values which reinforce:

- A commitment to learning and the pursuit of excellence
- A recognition that rights carry responsibilities
- A respect for the opinions and beliefs of others
- A concern for the welfare of others and for the environment

We are a learning-centred college. We acknowledge that everyone has learning needs and the principal task of leadership at all levels is to ensure they are met.

The college plays an active role in the community. We value and promote collaboration with others to make the local learning-network a reality for all.

We believe each of our students needs to have an appreciation of a multi-cultural society and their role within it.

We have a strong sense of common purpose. We strive to build self-esteem, self belief and a pride in belonging to the college.

We are a reflective college committed to building on success and improving our performance for the benefit of students.

The college is well supported by a committed group of governors who share our vision for the development of the college and its ongoing success.
