Dear Parent/Guardian,

Physical Education Kit

It has come to our attention as a department that a number of students are failing to bring the correct PE kit (as listed below) to their lessons. The correct PE kit is vital for three reasons:

1. **Personal Hygiene** – change of socks & kit.
2. **Safety** whilst participating in physical activities.
3. **Raise the profile** of the college locally and nationally.

This is starting to have a huge impact on participation as we only have a small amount of kit to lend to the students. We cannot allow students to wear their school uniform whilst taking part in physical activity. It is extremely important that students bring a change of clothes for hygiene reasons and this is why we have a designated PE kit. This has been selected as being appropriate under health and safety regulations. As a department we are always trying to raise the standards and we believe the appearance of our students is an important step in doing so.

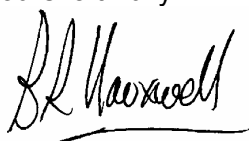

Please support the department in the quest to raise standards, safety and hygiene across the College. As from January the department will be having a no tolerance approach to kit in an attempt to improve standards and hygiene. We would appreciate your help in ensuring your child has the correct PE kit. Can I kindly remind you of the following kit requirements:
